

# CONCRETE PARADISE IN KEY WEST

BY KEY WEST SEASIDE, LLC

Key West, FL

Town Homes

4,200 – 5,400 sq. ft.

*Construction on an island, 150 miles from the mainland, can be more than challenging. The remote location caused substantial time delays, consistently overrun budgets and incomplete subcontracts. Outinord tunnelforms were chosen for their ease of use, the speed with which concrete was poured and the quality of the finished product they delivered. The first building was delivered in just seven and a-half months, previously unheard of in Key West construction history.*

Bob Butler, Key West, SeaSide LLC

**DEVELOPER:**

Key West SeaSide, LLC  
Key West, FL

**DESIGN ARCHITECT:**

Steve Johnson  
Key West, FL

**GENERAL AND
